

**National Interagency Coordination Center
Incident Management Situation Report
Wednesday, June 13, 2018 – 0530 MT
National Preparedness Level 2**

National Fire Activity

Initial Attack Activity: Light (83) new fires
 New large incidents: 4
 Large fires contained: 4
 Uncontained large fires:** 21
 Area Command teams committed: 0
 NIMOs committed: 0
 Type 1 IMTs committed: 2
 Type 2 IMTs committed: 2

Nationally, there are 18 large fires being managed under a strategy other than full suppression.

**Uncontained large fires include only fires being managed under a full suppression strategy.

Rocky Mountain Area (PL 3)

New fires: 5
 New large incidents: 1
 Uncontained large fires: 5
 Type 1 IMTs committed: 1
 Type 2 IMTs committed: 1

416, San Juan NF. IMT 1 (Pechota). IMT is also managing the Burro fire. Thirteen miles north of Durango, CO. Timber and brush. Active fire behavior with short crown runs, group torching and flanking. Numerous residences threatened. Evacuations, road, area and trail closures in effect.

Burro, San Juan NF. Fourteen miles south of Rico, CO. Timber. Active fire behavior with short crown runs, short-range spotting and torching. Road, area and trail closures in effect.

Badger Creek, Medicine Bow-Routt NF. IMT 2 (Greer). Two miles northwest of Mountain Home, WY. Timber. Extreme fire behavior with running, spotting and wind-driven runs. Numerous structures threatened. Evacuations, road trail and area closures in effect.

Bocco, Colorado River Valley Field Office, BLM. Three miles northwest of Wolcott, CO. Chaparral and short grass. Minimal fire behavior.

* **Fourmile**, Little Snake Field Office, BLM. Twenty-four miles north of Craig, CO. Brush and short grass. Active fire behavior with running. Structures threatened.

Southwest Area (PL 3)

New fires: 5
 New large incidents: 1
 Uncontained large fires: 7
 Type 1 IMTs committed: 2

Ute Park, Cimarron District, New Mexico State Forestry. IMT 1 (Day). One mile east of Ute Park, NM. Timber, brush and short grass. Minimal fire behavior. Road, area and trail closures in effect.

Soldier Canyon, Mescalero Agency, BIA. IMT 1 (Pierson). One mile northeast of Mescalero, NM. Timber, brush and medium logging slash. No new information.

Buzzard, Gila NF. Ten miles east of Reserve, NM. Timber. Moderate fire behavior with flanking, backing and torching. Structures threatened. Road, area and trail closures in effect.

* **Apple NM**, Cimarron District, New Mexico State Forestry. Thirty miles southeast of Folsom, NM. Brush and grass. Moderate fire behavior with single-tree torching, backing and smoldering.

Emery Gap, Cimarron District, New Mexico State Forestry. Eight miles north of Folsom, NM. Timber, brush and short grass. Minimal fire behavior.

377, Apache-Sitgreaves NF. Five miles northeast of Heber, AZ. Timber and tall grass. Minimal fire behavior. Structures threatened.

Judd, Southeast District, Arizona DOF. Three miles north of Bisbee, AZ. Brush and tall grass. Minimal fire behavior with smoldering. Area and trail closures in effect.

Predictive Services Discussion: Convective activity across the Pacific Northwest and Northern Rockies will continue as a low pressure area off the WA/BC Coast pumps moisture into a weak ridge of high pressure centered over eastern Montana. A flat ridge of high pressure will continue to create warmer than average temperatures across the southern half of the country. A burst of scattered convection is expected along the ridge's western edge. This could lead to new fire starts. Further west, over Nevada, a somewhat breezy and dry southwesterly flow will create areas of critical fire weather conditions. In Alaska, cool but dry conditions will continue across much of the state as the primary area of low pressure centered north of the Arctic Coast remains stationary. A secondary, weaker low along the northern Gulf coast will create a few showers and possible a storm or two over the Chugach Mountains.

Fight Fire Aggressively, But Provide For Safety First

Operational Engagement Category

Standard Fire Order #10 must be taken into account at all times when fighting fire. In order to fight fire safely and aggressively, every firefighter must be able to answer the following questions:

- Is the suppression method adequate? Ask yourselves, are we making progress? Are we beating our heads against a wall? Is there a better way to get this done? Give examples when you have had to change your suppression method.
- Are there adequate resources and time for effective suppression? Ask yourselves, do we need to retreat and reevaluate? Talk about times when you have realized you weren't getting anywhere and needed to retreat and start managing firefighters and placing orders.
- Are lookouts posted? Discuss when you post lookouts, who you would choose to be a lookout, and where they should be located.
- Are communications prompt with crews and other resources? Review the importance of good communications on the fireline.
- Have escape routes and safety zones been established? Talk about your crew's procedure for establishing escape routes and safety zones. Review what constitutes an escape route and a safety zone.
- Do you feel comfortable with your assignment? Discuss the situation check. Remind firefighters that every individual has the right to question an assignment.
- To reduce the risks:
 - Post lookouts.
 - Retreat if the situation is too complex. Emphasize that safety is everyone's responsibility; we all want to be good firefighters and being safe is part of that.
 - Do you have established trigger points?
